

Our more than a decade long presence in providing brand display solutions is reflected by our ever growing clientele. Our reliable displays and consistent services over a period of time have earned us a reputation with the major corporates in the country today.

Our activities include:

- Manufacturing and marketing wide range of high quality portable, compact and easy to assemble and dismantle exhibition displays.
- Signage fabrications in flex, metal and aluminium composite panels for turnkey solutions.
- Designing and printing large format graphics for both indoor and outdoor applications.
- Manufacturing large format outdoor displays like scrollers, trivisions...
- Providing in-store graphics, displays and fixtures for retail stores, multiplexes and shopping malls and installing them anywhere in India.

exhibitions concept to reality

Exhibition concepts have undergone drastic changes by the turn of the century. Our newly introduced elegant European "ExhibitionMate" system for building up stalls and pavilions have changed the very look of trade fairs. We provide turnkey solutions from concept to implementation for brand assignments maximizing trade shows and marketing effectiveness.

signages corporate signs, out doors and indoors

Corporate signs have changed for the better with the arrival of Global players in India. Outdoor and indoor signboards have started looking a lot smarter. Our signage products have been changing the very look of many brands and have shaped corporate images quite substantially. Our signage fabrication, logistics and installation at multi locations across the country include several high profile petroleum companies, banks, retail stores and hyper malls.

Sinex also specializes in LED signage which is rapidly replacing the traditional neon signage.

large format outdoor displays bigger the better

With the advent of digital displays and high-res graphics, billboards have been getting a new look. Our in-house facility for design and production of large format scrollers, trivisions and high resolution digital graphics ensures enormous mileage and unbelievable brand value for the advertisers.
